

Weather Project

Amplified Unit 7

20 Days

Students' will keep track of the weather for 20 days. This needs to be very neatly done, students may type print and past written work into the booklet, or very neatly write into the booklet. During their twenty days they will track:

Wind Speed:

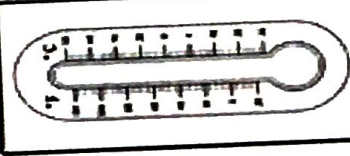

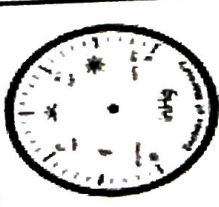

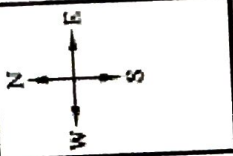

Wind Direction:

Temperature:

Humidity:

Then Discuss how the weather was different from yesterday? (5-7 sentences) (This will not be done for the first day)

Optional Readings: Air Pressure, tomorrow's forecast, & precipitation levels.

Today's Date & Time: _____ : _____		Season: Fall Winter Spring Summer	
Air Temperature: 	Air Pressure Reading: 	Wind Direction: 	Tomorrow's forecast: (my prediction) _____
Wind Speed: _____	Precipitation: 	Why I forecast that: _____ _____
